

Installation Instructions

■ Introduction

Thank you for purchasing MITSUBISHI Integrated FA Software, MELSOFT series.

This document explains how to install and uninstall GT Works3 (SW1DNC-GTWK3-E□). Please read carefully before installing the product to your personal computer.

Installation

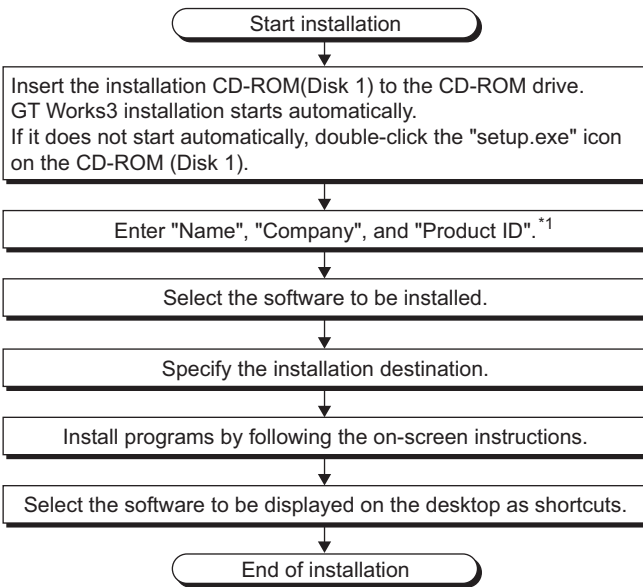

Install GT Works3 to the personal computer.

■ Check before installation

- Log on to the personal computer as a user having the "Administrator" (computer administration) privilege.
- Close all the softwares running under Microsoft® Windows® Operating System before installation. If the product is installed while other softwares are running, it may not operate normally.

■ Batch installation

Install multiple software in a batch.

*1: Product ID is written on the "License certificate" included with the product. Enter the 12-digit number divided into 3 and 9 digits.

⚠ Notice

- Reprinting or reproducing the part or all of the contents of this document in any form for any purpose without the permission of Mitsubishi Electric Corporation is strictly forbidden.
- Although we have made the utmost effort to follow the revisions of the software and hardware, in some cases, unsynchronized matter may occur.
- The information in this document may be subject to change without notice.

■ Individual installation

Each software can be used individually by installing only the required software.

Double-click the "setup.exe" icon in each folder to install the software. For the software where the setup.exe is not included, copy the entire folder and then run it.
